Danielchidera2001@gmail.com | 07067060348 | 32 Adediran Street, Ojo Alaba, Lagos | Open To Relocation

PROFILE

Detail oriented and versatile Computer Science graduate with hands on experience in web development, operations management, administrative support and client communication. Skilled at handling multiple responsibilities simultaneously, demonstrated through managing official communications and records at a federal government agency while running an independent freelance operation. Strong in data handling, documentation, technical problem solving and team collaboration, with a passion for contributing effectively from day one.

CAREER OBJECTIVE

Computer Science graduate seeking a full time role in web development, operations, administration or customer support where I can apply my technical skills, strong communication ability and attention to detail to contribute meaningfully while growing professionally.

PROFESSIONAL SUMMARY

4+ years of combined experience in web development, operations support, administrative coordination and client management.

SKILLS

- PHP, MySQL, JavaScript, HTML, CSS, Responsive Web Design
- Microsoft Excel, Microsoft Word, Google Workspace
- Data Entry, Record Keeping and Documentation
- Inventory Tracking and Administrative Coordination
- Official Correspondence and Report Preparation
- Customer Service and Client Communication
- Team Collaboration, Multitasking and Problem Solving

EDUCATION & CERTIFICATIONS

Bachelor of Science (B.Sc.) Computer Science

Godfrey Okoye University, Enugu State | 2020 – 2024

West African Examination Council (WAEC) Certificate | 2017

National Youth Service Corps (NYSC) — Completed | 2026

Full-Stack Web Development — NIIT Tech Academy | 2023

Full-Stack Web Development — Udemy, Angela Yu | 2024

WORK EXPERIENCE

Communication Operations Staff, Nigerian Airspace Management Agency (NAMA), Port Harcourt Airport, Rivers State

July 2025 – May 2026

- Coordinated and transmitted official communications across local and international stations accurately and on time with zero recorded errors
- Used Microsoft Word to prepare and format staff rosters and typed important notices and official correspondence for the department

- Maintained structured operational records and filing systems ensuring all documentation was accurate and retrievable at all times
- Managed full independent shifts in a regulated government environment demonstrating reliability and accountability without supervision
- Collaborated with senior staff to ensure smooth communication flow and strict adherence to standard operating procedures

Freelance Web Developer, Self Employed

September 2024 – Present

- Designed and developed custom websites for small business clients handling the full project lifecycle from requirements gathering to deployment
- Wrote clean frontend and backend code using PHP, MySQL, JavaScript, HTML and CSS ensuring cross device functionality and responsiveness
- Managed client relationships independently, handling briefs, feedback, revisions and project updates from start to final delivery
- Debugged and optimized final year project code for students helping them meet submission deadlines on time
- Coordinated multiple projects simultaneously maintaining clear documentation and consistent communication throughout

Web Development Intern, NIIT Tech Academy, Festac, Lagos

March 2023 – September 2023

- Completed intensive full stack web development training covering frontend and backend technologies in a structured professional environment
- Updated and maintained operational data and inventory records using Microsoft Excel ensuring accuracy and consistency at all times
- Handled administrative tasks including filing, documentation and office coordination supporting smooth daily operations
- Contributed to team projects under professional supervision, collaborating to meet deadlines and deliver quality output

ACHIEVEMENTS

- Graduated with a Second Class Upper Division in Computer Science from Godfrey Okoye University
- Successfully managed full independent operational shifts at a federal government aviation agency with zero recorded errors
- Built and delivered multiple client websites independently from concept to deployment as a self employed developer
- Completed two full stack web development certifications while actively working and managing client projects
